ABOUT US

If you are traveling between Oslo and Bergen, or are in Telemark, we have the perfect lunch place and stop-over. Combine a 30-45 minutes stay with other attractions in Telemark, such as Heddal stave church, the Heavy Water Museum (NIA) in Rjukan, or the Gausta-train to Gaustatoppen. Or simply as a break after driving through spectacular and dramatic nature. From here, you have a fantastic view over Norway's largest national park and Europe's largest mountain plateau – Hardangervidda national park. If you book lunch, we also include a 20-minute film about Hardangervidda national park.
